Re: School Bus Monitoring
Date: August 1, 2011

As a result of periodic issues that arise on school buses, the Pottsgrove School District equipped its buses with video cameras several years ago. These cameras have the ability to record audio and video. We are notifying you that your children may be videotaped during their bus rides to and from school. These tapes are only viewed if there is an issue that occurs on the bus that administration deems important enough to investigate.
