to help families and agencies in
Montgomery County**

**Sponsored by the
Montgomery County Alliance for Healthy Babies
and Montgomery County Health Department**

**Montgomery County Personal Navigator Program
Visiting Nurses Association Community Services
Connecting people to health and social services
For information call 1-800-591-8234 (Bi-lingual Assistance)**

The Children's Hospital of Philadelphia is conducting The National Children's Study in Montgomery County. This study is examining the effects of the environment on the health and development of our children. If you are pregnant and want to learn more about the study, please contact us at 1-877-627-2345 or NSC@email.chop.edu. Compensation is provided for participants.

THERE'S NO EXCUSE FOR DOMESTIC ABUSE

Domestic Violence is a pattern of behaviors in a relationship that are used to gain and/or maintain control and power over another. Half of all marital relationships in this country regardless of race, class or religion involve some form of domestic violence. A woman is beaten every 17 seconds.

Battering is the single largest cause of injury to women.

Breast milk is your baby's perfect food. It is safe, fresh milk, all the right nutrients, in the right amount. Breastfed babies are sick less often and don't have as many earaches and allergies. Babies also have less diarrhea and stomach trouble because breast milk is easy to digest. Breastfeeding is free food and easier because there is nothing to carry, measure or heat. Breastfeeding also burns 500 calories a day and helps shrink the uterus back to its normal size.

Four Steps to Selecting a Child Care Provider

- 1. Interview the care givers**
- 2. Check references**
- 3. Make the decision for quality care**
- 4. Stay involved and visit your center**

Text4Baby

A free mobile information service designed to promote maternal and child health. An educational program of the National Healthy Mothers, Healthy Babies Coalition (HMHB), text4baby provides pregnant women and new moms with information to help them care for their health and give their babies the best possible start in life. Women who sign up for the service by texting **BABY to 511411** (or BEBE in Spanish) will receive free SMS text messages each week, timed to their due date or baby's date of birth.

CRIBS FOR KIDS PROGRAM

INFANTS NEED A SAFE SPACE TO SLEEP

“Cribs for Kids” is a free program for low-income Moms who can't afford a crib for their infants. The “Cribs for Kids” Program will provide a pack-n-play crib, information on “Safe Sleeping” and tips to protect your baby. An agency referral is required. This program is funded entirely by donations and grants to purchase cribs and sheets. Any questions, please call Barbara Hand at 610-278-5117

To reduce the risk of Sudden Infant Death Syndrome (SIDS) and to prevent suffocation for Infants under 12 months of age

- ✓ Place baby on his/her "Back to Sleep" in a crib with a firm, tight fitting mattress. Do not sleep with your baby or put the baby down to sleep in an adult bed or in a bed with other children.
- ✓ Don't smoke before, during or after the birth of your baby. Create a smoke-free zone. Make sure no one smokes around your baby. If someone must smoke, ask them to go outside.
- ✓ "Snug and Safe" always return your baby to their own crib
- ✓ Place your baby on his or her stomach for "Tummy Time" when he or she is awake and someone is watching.
- ✓ Do not put pillows, quilts, comforters, sheepskins, pillow-like bumper pads or stuffed toys in the crib.
- ✓ Keep your baby cool. Consider using a sleeper instead of a blanket. If you use a blanket, place baby with feet to the foot of the crib. Tuck a thin blanket around the crib mattress, covering the baby only as high as his/her chest.
- ✓ Use only a fitted bottom sheet made for that size mattress.
- ✓ No more than 2 and 3/8 inches between crib slats. All sides of the cribs should be stationary and not move downward.
- ✓ Used cribs are not recommended, many have been recalled, or have missing parts or instructions. All cribs with sides that slide down have been recalled as of July 1, 2011.
- ✓ Read instructions carefully when assembling crib.

Proper Child Safety Seat Use

Pennsylvania Law requires:

- 1. Children under the age of 4 to be properly restrained in an approved child restraint device.**
- 2. Ages 4-8 must be in a booster seat.**
- 3. Ages 8 to 18 must be restrained anywhere in the vehicle.**

Rear Facing – Secure children in a rear-facing child safety seat until 2 years of age or until the maximum weight or height allowed by the manufacturer of the car seat. Children younger than 1 year should always ride in a rear-facing car seat.

Forward-Facing – Over 2 years: When children outgrow the rear-facing child safety seat, turn forward facing with a harness as long as possible, up to the highest weight or height allowed by the manufacturer. All children under age 13 should ride in a back seat.

Belt-Positioning Booster Seat – After outgrowing the forward-facing safety seat, secure them in a belt-positioning booster until the vehicle lap and shoulder belt fits properly, 4 ft. 9 in. tall and approximately ages 8 and 12 years. Never place the shoulder strap behind child. All children under age 13 should ride in a back seat.

Seat Belt - Once children outgrow the booster seat, use a lap and shoulder seat belt to restrain them in the car. **Never place the shoulder strap behind the child.** All children under age 13 should ride in a back seat.

4 OUT OF 5 CAR SEATS ARE INSTALLED INCORRECTLY; CALL TO GET YOURS CHECKED: Montgomery County Car Seat Hotline 610-278-5119 or American Academy of Pediatrics 1-800-CARBELT

NURSE FAMILY PARTNERSHIP

The Montgomery County Nurse-Family Partnership is a **free** program helping low-income, **first-time** mothers succeed. Mothers develop confidence and skills for parenting and economic self-sufficiency working with a specially trained nurse home visitor. If you are pregnant with your first child, under 29 weeks gestation and would like a nurse to visit you regularly until your child turns two years old call **610-278-5117** for more information.

TAKE FOLIC ACID

Help Protect Your Baby from Birth Defects Folic Acid can help prevent birth defects of the brain and spinal cord. Vitamins and minerals are an important part of your diet. Take a multivitamin that has folic acid (at least 400 micrograms) and eat foods rich in folic acid such as citrus fruits, leafy green vegetables, whole grain breads and cereals. If you are thinking about getting pregnant or are of child bearing age, consult your doctor about Folic Acid. For information on Folic Acid call March of Dimes Resource Center at 1-888-663-4637

MEDICAL RESERVE CORP

The Medical Reserve Corps (MRC) is part of a nationwide initiative to mobilize and coordinate volunteers to help their communities in the event of a public health emergency. The MRC provides the opportunity for teams of local volunteers who have medical and emergency response skills, as well as non-medically trained volunteers with a desire to help in emergency situations, to contribute their time and expertise when they are needed. The MRC provides trainings to ensure that, in the event of a public health emergency, MRC volunteers will be prepared to deploy and assist their communities in the most effective way possible. For more information please contact the **Montgomery County Health Department at 610-278-5117.**

BACK TO SLEEP

SIDS of Pennsylvania 1-800-721-7437

One of the most important things you can do to help reduce the risk of SIDS (Sudden Infant Death Syndrome) is to put your baby on his or her back to sleep. SIDS is the sudden and unexplained death of an infant under one year of age. For more information about infant sleep positions, talk to your doctor.

HOME VISITS BY PUBLIC HEALTH NURSES

The Home Visiting Program is a FREE program and helps you and your family's health care needs. This program is for Montgomery County Residents who are pregnant women, new mothers, fathers and their children. A public health nurse and other professional staff from the Montgomery County Health Department will come to you to discuss how you and your baby are doing. To assist mother's health, we offer help with baby check ups, family planning, infant care tips, first aid tips, breastfeeding information and brother and sister issues. In the line of children's health, we offer tips such as bathing, diapering, teething and feeding. Nurses also do height and weight checks, learning skills, sleeping habits and locations where immunizations and lead testing is provided. Call: 610-278-5117

NURSE-FAMILY PARTNERSHIP PROGRAM

The Nurse-Family Partnership is a program for low-income women having their first baby. A specialized nurse will visit you at home during your pregnancy, after the baby is born and until your child is two years old. This is a free, voluntary program helping first-time parents succeed. You can be a part of this program if this is your first pregnancy and you are between 12 and 29 weeks pregnant.

PRENATAL SERVICE PROGRAM

You may qualify for free prenatal care. Qualification for this program is for pregnant women who live in Montgomery County, low income and have been rejected by Medical Assistance (limited space is available). For more information and to see if you qualify, (Se habla español) call:

Family OB/GYN Center of Montgomery, 15 West Wood Street, 2nd Floor, Norristown, PA 19401 610-270-2210
