Subject: West Pottsgrove Elementary School Update
To: <ssieller@pgsd.org>

Good afternoon West Pottsgrove Elementary School Families,

I hope this email finds you well. While this unprecedented time has been a challenge for us all, please know that the faculty and staff of West Pottsgrove Elementary School and the Pottsgrove District remain committed to supporting the growth, development, and well-being of all of our students.

Our Superintendent of Schools, Dr. Shirk, sent out an update to families this morning regarding our plan for instruction following Governor Wolf's recent announcement that schools in the Commonwealth will be closed at least through Monday, April 6, 2020. Please [click here](#) to view that message.

Teachers are hard at work developing this new model for instruction. At the elementary level, we will be using Class Dojo as the delivery method for directions and communications. Please be sure that you are connected to your student's teacher via Class Dojo. If you need any assistance in that process, do not hesitate to email them or email me directly. You can expect our process to begin on Monday, March 30.

As we practice our social distancing during this time apart, we want to ensure that we remain connected. Please [click here](#) for a video from the West Pottsgrove Elementary School Faculty and Staff letting students know that we miss them very much. I also invite you to participate in our weekly virtual spirit weeks that are being hosted on the West Pottsgrove Elementary School Facebook page. Although we not may be under the same roof right now, we certainly remain together in spirit.

Stay safe, stay healthy, and we hope to see you again very soon.

Steve Sieller

Principal

West Pottsgrove Elementary School
